Re : Post Landing Charges for Export to Indian Ports Applicable from 1st March 2020

sh to bring to your notice that Government of India has formed a Special Logistics Cell under Department of Commerce. The objective of this department is to bring down the logistics cost in India and ensure transparency in the handling of EXIM business within the country. The Special Secretary, Logistics has conducted several meetings with various stakeholders and trade bodies to discuss and finalize the Standard Operating Procedure on charges to be charged to exporters and importers, that ensures transparency and accountability in the logistic sector.

Accordingly, a meeting was also conducted with NVOCC Consolidators Association of India where it was proposed that CAI should form a self-regulatory body for governing charges charged by its members, to control and ensure transparency and accountability in logistics cost.

In view of the above the Committee of CAI [Consolidators Association of India] has requested its members NVOCC/Consolidators to adopt a self-regulatory approach towards charging of the Post Landing Charges for the LCL Imports into India.

Under this new initiative the charges and headings would be restricted only to 3 components: THC, Docs Fee and Service Fee.
